2023-2025 Academic Facilities Wealth Index - Preliminary
July 22, 2022

NOTES: A.C.A. § 6-20-2502 defines the calculation of the Academic Facilities Wealth Index.

The Academic Facilities Wealth Index is calculated annually; however, the FWI calculated at the time master plans are due for a biennial project cycle is used to determine funding for the entirety of the project cycle.

The Academic Facilities Wealth Index is used to determine a school district's share of financial participation in a local academic facilities project eligible for state financial participation as approved by the Commission for Arkansas Public School Academic Facilities and Transportation.

The district share of financial participation is the next to the last column and has been adjusted as appropriate according to A.C.A. § 6-20-2502(1)(A)(iv)(d) and 6-20-2502(1)(D).

Pursuant to A.C.A. § 6-20-2502 as amended by Act 1080 of 2019, every school district with FWI of 1.00 or greater will be funded at the same level as the first district with FWI below 1.0, except that this funding will not exceed the amount of funding provided for FWI of nine hundred ninety-five thousandths (.995).

The source for median household income by school district used in subdivision (1)(A) is the U.S. Census Bureau's American Community Survey, 2020 5-year estimates.

The 2023-2025 Academic Facilities Wealth Index calculation uses calendar year 2021 assessment data (payable in calendar year 2022 and used for FY23 state aid calculations). Assessment data changes frequently and the FWI calculation is updated mid-FY to reflect any assessment updates.

Pursuant to § A.C.A. 6-20-2502(D), school districts identified as high-growth districts under A.C.A. § 6-20-2511 shall receive the lesser of the weath index as calculated under the formulas under subdivision (1)(A) and (1)(B).

School districts identified as high-growth districts as defined in A.C.A. § 6-20-2502(1)(D) are identified by the letter "H" in column 4.
