

**Remaining 2122 Unfunded Projects
Draft Scopes**

Draft scopes are provided by the Division to assist districts with Partnership Program project agreements. Districts are responsible for reviewing the draft scopes for accuracy and completeness and to ensure district understanding of state partnership funding.

Districts are encouraged to contact the Division with any questions and/or concerns. *This list is not intended to convey approval or funding.*

Project cost factors are based on all approved project spaces. Therefore, project scope may exceed funded GSF. All approved spaces must be built.

Projects where demolition is authorized may have demolition/asbestos abatement funds built into the qualified cost. Failure to demolish indicated buildings may result in lowered SFP or redetermination of project eligibility for State Financial Partnership.
