

Clint Hull

I am the owner of CH Equipment Service located in

Dardanelle. I served on the board at Petit Jean Vocational Tech during the 1970's. I have served on the Pottsville School Board for 37 years, the Arkansas School Board Association for a number of years, past president of ASBA and still serve on the ASBA Risk

Management and Workers Compensation boards.

During my service on the Pottsville board, I have been involved in numerous building projects, including the building of a new Elementary School, Junior High, and High School. As well as several additions and renovations to the older facilities. We have recently constructed a safe room and multi-purpose facility.

I have been involved in hard bid, design and build, and construction management contracts. I have worked with architects, engineers, and contractors on several projects.

At this time I am involved in the process of making our facilities safer by installing safety locking systems on all classroom door; keyless entry systems; additional camera and visitor ID systems; and security film on exterior door and glass entryways. I am continuously learning about and looking for better ways to make our schools safe but usable and attractive for our public and students.

Jeff Lisenbey

Objective

I would like to offer my 20 years of experience in the construction industry and the valuable knowledge I have gained in 16 years on our local school board as a willing volunteer to serve on the Facilities Committee of the Arkansas Department of Education.
